

OUR KEY ASKS

First determine your legislator's current stance on SB 810.

A fully supportive legislator will already have signed on as a co-sponsor of the bill. Other legislators may voice support for SB 810, but not yet be official co-sponsors. Some legislators may be undecided, and the rest who oppose the bill will plan to vote against it.

Ask co-sponsors of the bill:

To continue their support and to urge their colleagues who are key committee members to support the legislation. Supporters can also circulate a "Dear Colleague" letter urging other legislators to support the bill. Ask supporters to speak out publicly to voice their support.

Ask supporters who are not co-sponsors:

To become co-sponsors, and all of the above.

Ask undecided legislators:

What additional information they need in order to win their support.

Ask opponents:

What additional information might help persuade them to change their position. Ask them to study the data about how much money single payer would save in their district.
